**GLOBAL GROUND
TRANSPORTATION**

GPN is an international member organisation with local services operated by premium bus and motor coach companies worldwide

Dear Reader

My name is **Rogier Staal**, and I am proud to introduce myself as the new Chairman of the Global Passenger Network (GPN). It is a great honour to take on this role and continue the strong legacy of collaboration, innovation, and excellence that defines the GPN family - an alliance of leading independent coach companies operating in over 45 countries worldwide.

The Global Passenger Network was established as a one-stop solution for clients in need of professional, reliable, and high-quality coach hire services. Whether our clients are travelling for business or leisure, near or far, they can always count on the GPN to deliver local service with international standards - safe, comfortable, and supported by trusted professionals every step of the way.

The network has grown a lot over the years, both in members but also in numbers we have become a serious global network. **With 25000 vehicles and approximately 35000 employees worldwide** we have become an international organization that is indispensable in the transport and travel sector. In the meantime, we participate in international trade fairs, congresses and expos all over the world or visit these shows as a trade visitor. Our members take part in prominent panel discussions or act as moderators. With this, we create great brand awareness but also add a lot of value to our network. For many years GPN has a successful partner program with which they conclude important partnerships with prominent and important companies and organizations in the sector. Both our members and partners through our platform stay informed about the latest innovation in the sector as well as useful knowledge transfer.

Our strength lies in the diversity and dedication of our members. **We are more than just a network of coach operators** - we are a global team of experts working closely with technology partners, vehicle manufacturers, and tourism professionals to share ideas, create smart solutions, and contribute to a more sustainable future of transportation. Since 2006, we've gathered annually at our international congresses to exchange knowledge and continuously raise the bar on quality and service.

Today, GPN remains a dynamic platform that serves tour operators, MICE planners, DMCs, and group travel organisers. Whether you're planning a ski trip, a school excursion, a corporate transfer or a complex international itinerary, our members are ready to provide you with tailored services, local expertise, and a personal commitment to excellence. From sightseeing tours and hotel reservations to adapted coaches for special needs, GPN members offer more than transportation - we offer peace of mind.

Representing your country within GPN is a mark of trust and distinction. It is a commitment to high standards, innovation, and service. As Chairman, I am excited to support our members in further developing this strong network, and to welcome new partners and clients into our community. You will find a full list of our members in this guide. To learn more or submit a travel request, please visit us at www.gpn.travel. We're always here to help.

We look forward to welcoming you aboard one of our coaches soon, and sharing with you the GPN experience.

#WeAreGPN

Rogier Staal
President of GPN

Worldwide Network of Coach Companies

Why hire your coach
with a GPN member?

A GPN member provides
high quality transportation
services

You work directly with
supplier – no intermediates
or brokers

Through network members
access to over 17.000
vehicles for hire

Work with a network
of elite motorcoach
companies

One point of contact for
access to over 40 coach
companies around the world

Your transportation partner

The Global Passenger Network (GPN) is an international member organisation with local services operated by premium bus and motor coach companies worldwide.

GPN and our members are proud to offer you

- High quality motor coach and bus services worldwide through one web site.
- We manage your request quickly and efficiently, with minimize bureaucracy.
- Easy booking and invoicing processes – all in a language you are familiar with.
- All members operate to a level of approved and audited standards.
- 24-hour helpline in case of emergency.
- Vehicles ranging in size from 5 – 82 seats.
- All vehicles are equipped with a mobile communication system.
- All vehicles comply with the latest safety and environmental standards.
- We offer special services for MICE planners and tour operators and creative solutions to meet the specific needs of our customers .

**IMPROVING
ALL QUALITY
AND SAFETY
STANDARDS**

The Environment

Moreover our Strategic and Alliance Partners are driving emission levels lower with rapidly evolving technologies.

At the Global Passenger Network our modern fleet of vehicles are cleaner and greener than ever before.

**REDUCING
EMISSIONS
LEVELS**

GPN's objective is to be the leading International organisation involved in ground transportation with coaches.

All our members and partners team-work closely on a daily basis sharing ideas, experiences, knowledge and industry trends with the aim of being the best in class.

Through our exceptional standards we seek to promote the motor coach and bus industry as a viable and ecologically superior alternative to any other means of group transportation.

We excel in the personal and local care we give to our valued clients, from the planning through the execution and at the end of any service we operate.

Our global members are focussed on providing the best solution for your group no matter how big or small the group is or how complex is the itinerary.
